October 10, 2014

Dear Stakeholders:

The sidewalk construction on the east side is wrapping up. The remaining sidewalk is awaiting the reconstruction of the signal system at 4th St S/Cedar Ave/Riverside Ave. The light poles on the east side are in the process of being installed and wired. The new cross walk refuge construction between 4th St S and 6th St S will begin next week.

Signal work at the intersection of Riverside Ave and Cedar Ave will be continuing for the next few weeks. For short durations during the work the signal system will need to be taken out of service to facilitate the signal system updates. We will work to keep the service disruptions to a minimum.

BUSINESSES/BUILDINGS ARE OPEN DURING CONSTRUCTION. Our plan is to maintain pedestrian traffic to doors ways along the corridor. Please be aware of the construction zone and use the other side of the street for pedestrian movement when possible. Thank you for your patience during construction.

Please visit the project website for additional information at:
