Please understand that the construction schedules are subject to change due to weather and unforeseen circumstances.

Our construction activities are likely to cause you some inconvenience, but we are hopeful that you will be patient and understanding as the work progresses. For our part, we will do our best to keep

these inconveniences at a minimum. If you have any questions or concerns about this improvement project, please call me, at 612- 673-3365. You can also contact the Chief Field Inspector on the Project, Kyle Wallace at 612-673-2438.

ROADWAY CONSTRUCTION

The roadway construction began on Monday July 25.

City of Minneapolis

W 54th Street

E. BOUND ROADWAY PAVING BETWEEN LYNDALE AND HUMBOLDT AVE S WILL RESUME NEXT TUESDAY, OCTOBER 4TH. (BACK UP DAY WEDNESDAY OCTOBER 5TH IN CASE OF RAIN)

The concrete roadway paving along W 54th St from just west of Lyndale Ave S through the intersection of Humboldt Ave S is tentatively scheduled to resume Tuesday October 4th. **Starting at the end of the day on Sunday October 2nd, all residents and businesses that access their property directly off of W 54th St are encouraged to begin parking on the north - south cross streets, as there will be a number of preparations which may make access into and out of driveways directly on W 54th St difficult.**

WHAT TO EXPECT

By the end of the day on Sunday October 2nd, W 54th St, and all cross streets between Lyndale and Humboldt Ave S will be closed off at W 54th St., with the exception of Dupont Ave S.

On Tuesday (weather permitting) the east bound roadway lane will be paved, starting at Lyndale and heading west and finishing placement just west of Humboldt Ave.

After the concrete placement, the new pavement will be sawed in the evening and into the night. This night work is necessary as the concrete must be sawed a few hours after it has been placed.

Curing time for the roadway concrete will take about 1 week and access to driveways and alleys off W 54th St will remain closed seven to eight days when concrete is curing.

Following the roadway paving, curb and gutter, driveway & alley aprons and sidewalk will be placed. Once these concrete structures are poured they again will be blocked off to allow the fresh pavement to cure. **If the approach to your driveway is on W 54th St, we will notify you in advance of placing your new driveway approach and ask you to park at another location for seven to eight days.**

All solid waste and recycling pickup dates will not change and crews will pick up at the usual locations.

For our part, we will do our best to keep these inconveniences at a minimum. If you have any questions or concerns about this improvement project, please call either Kyle Wallace or myself, at 612-919-2991.

Sincerely,

Stephanie Malmberg, P.E

Construction Engineer

WATER MAIN INSTALLATION:The contractor has now finished the water work and will be cleaning up and removing equipment early next week. City crews will chlorinate and flush the new watermain prior to taking water test samples and making the new line active. The contractor (Shafer) will follow up with restoration of the roadway with a bituminous patch in the upcoming weeks.

SOLID WASTE, ORGANICS AND RECYCLING PICK UP:

The following addresses need to start placing their solid waste, organics and recycling out in front of their property for pick-up during construction until further notice.

5345 Aldrich Ave. S.

5344 Aldrich Ave. S.

5345 Bryant Ave. S.

5405 Emerson Ave. S.

5401 Emerson Ave. S.

5400 Dupont Ave. S.

5400 Emerson Ave. S.

5401 Fremont Ave. S.

5400 Fremont Ave. S.

5401 Girard Ave. S.

The following address will have put their solid waste, organics and recycling out by alley at the sidewalk until further notice.

5344 Fremont Ave. S.

Pick-up locations at all other properties will not be impacted at this time.

GAS MAIN WORK ON W 54TH ST.

CenterPoint Energy began their work along W 54th St on Monday June 13th . Centerpoint Energy's subcontractor (Q3) will be onsite to patch in their work areas (ped ramps and pavement

cuts) in conjunction with the water work restoration.
